

timeliTMii

Where time is currency

Intro

Timelii is an AI powered social network platform designed to reduce loneliness and isolation by enabling people to share time in real life companionship activities such as watching movies, taking morning walks, home cooking, podcast collaborations, hosting, dining, traveling, etc.

While improving mental well being and at the same time, provide earning opportunities by enabling people to share their spare time and get paid for it.

Only purpose driven activities beyond of forming long term bonds.

Problem Statement

01

Loneliness & Isolation

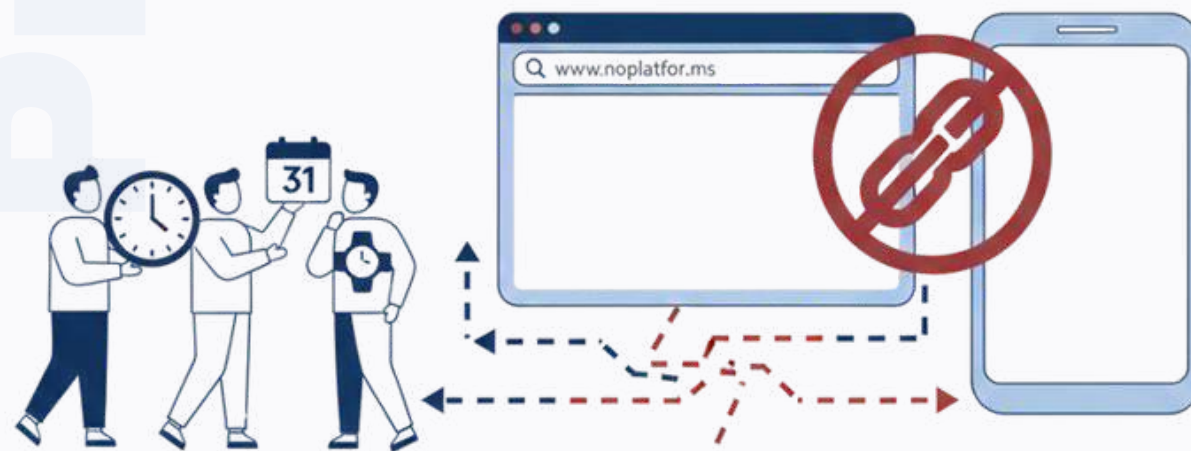

1 in 4 adults worldwide reports feeling lonely (Meta Gallup, 2023)

02

Earning money is still hard

Earning money is difficult because it requires specific skills or high quality education

03

Lack of time sharing platform

There's no accessible platform that allows people to share and reserve time for real world activities

Solutions

01

Remove loneliness by sharing time

Users can share their time for real world activities like travel, coffee, mentoring, and overcome loneliness

02

No skills required to earn

No specific skills or qualifications are needed to earn simply being available and verified is enough.

03

Time sharing platform

We turn time into a marketplace user auction their availability, and others bid for that

How timelii Works

Create Profile

User simply creates a profile and gets verified to start offering their time.

Auction Time

Auction activities (movie, hosting, etc.) with a base price

Bidding

Others bid to reserve that activity time

Real-Life Meetup

After these three steps, users can meet in the real world

Market Size

Sector	Global Market Size	INR Equivalent	Examples
Experience Economy	\$774 B	₹65 Lakh Cr	Hotel Industry, Airbnb
Gig Economy	\$455 B	₹37.4 Lakh Cr	Upwork, Urban Company
Social Networking	\$95.3 B	₹7.9 Lakh Cr	Facebook, Twitter
Online Dating App	\$5.64 B	₹0.46 Lakh Cr	Tinder, Bumble

Revenue Model

Take rate

10–20% Platform fee on each successful activity completion

Memberships

Basic, Plus, and Prime tiers with exclusive features

Promoted Listings

Users pay to promote their auctions regionally (city/state/country)

In-App Advertisements

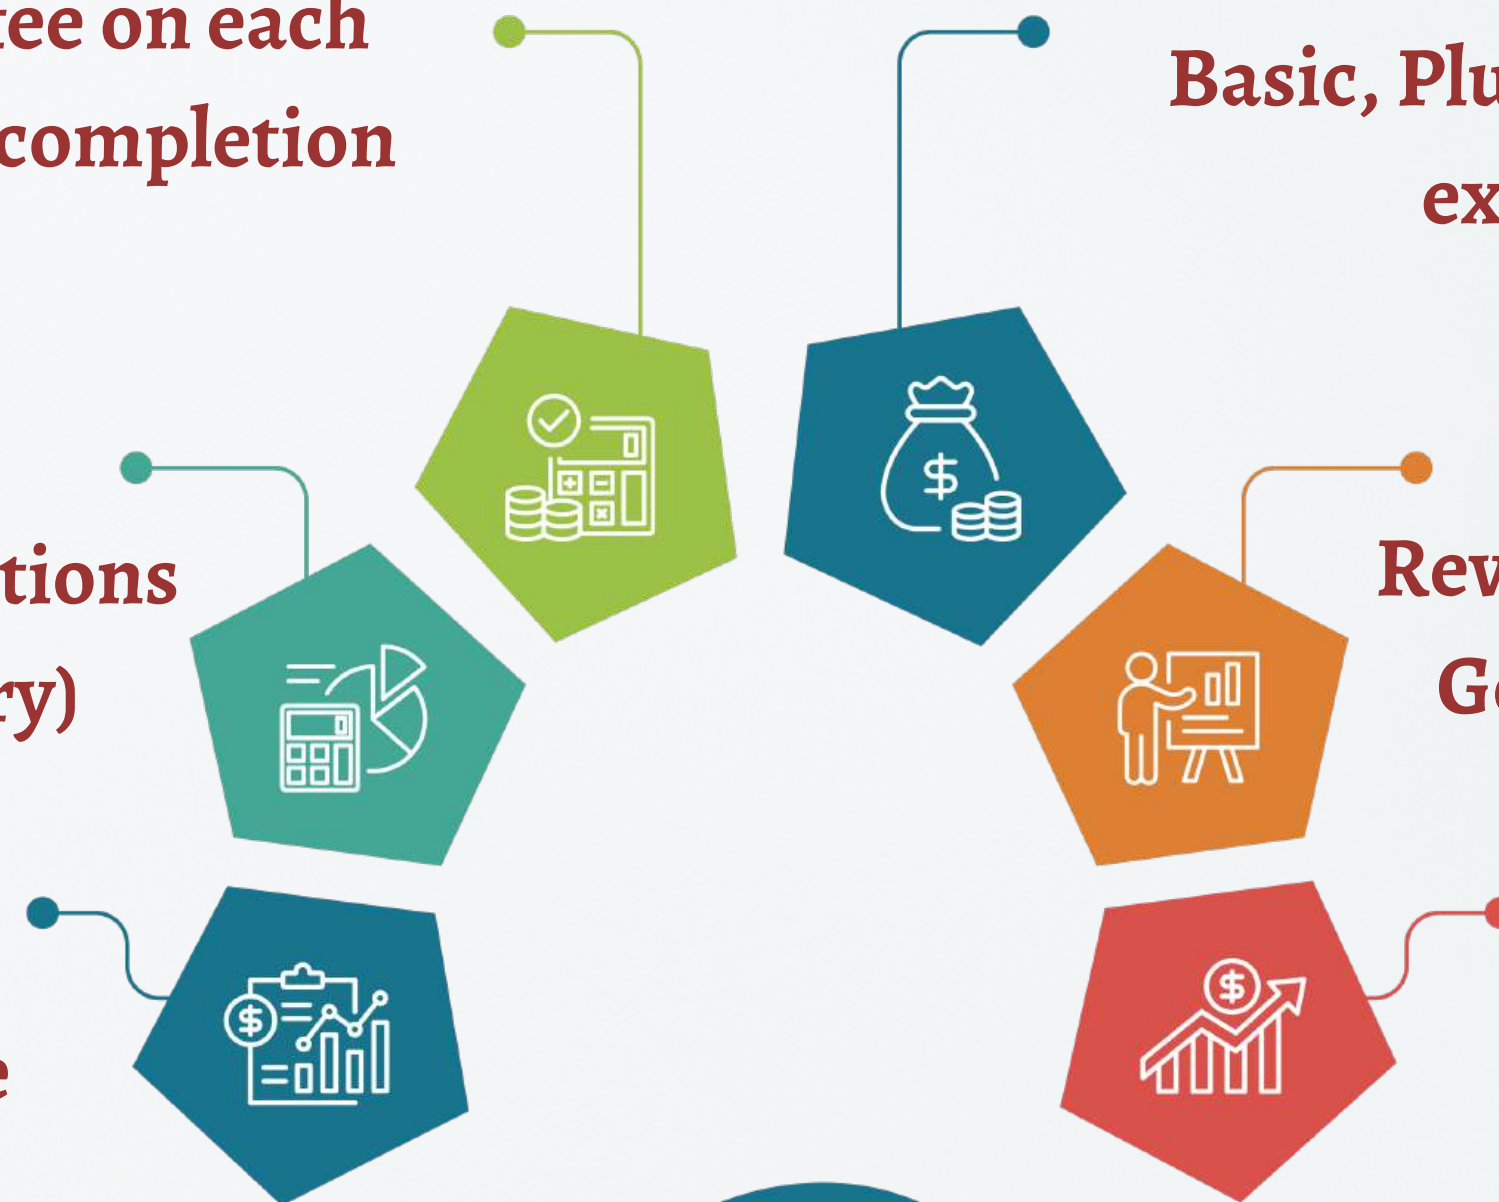

Revenue through ad networks like Google AdMob, Media.net, etc.

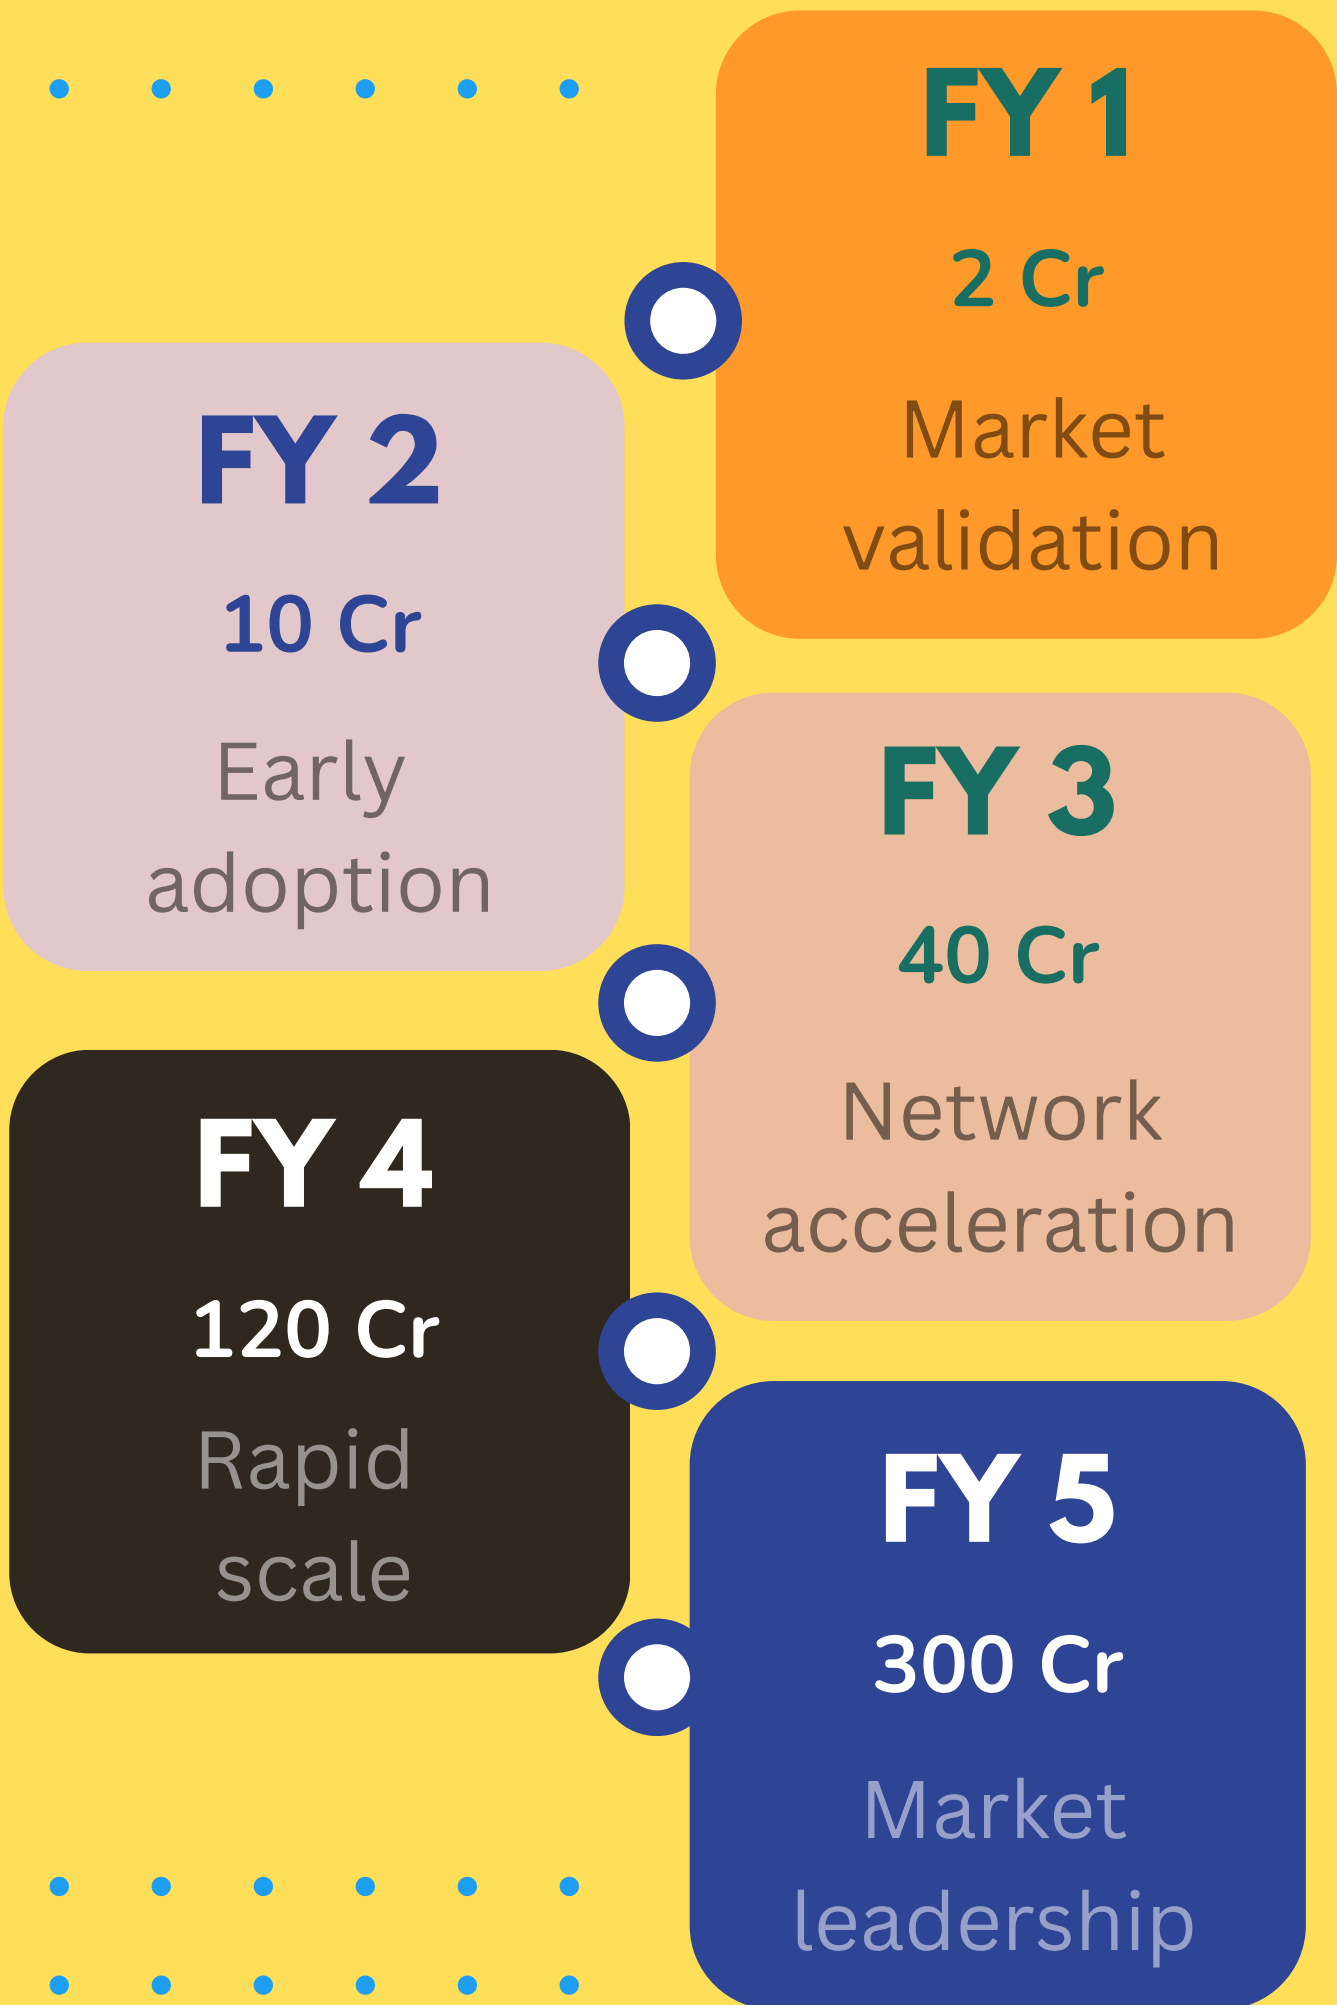

Ad-Free Subscriptions

Fixed monthly fee to remove ads from user experience

Partnership Collaborations

Future tie-ups with HORECA

Revenue projection

Unique Selling Proposition

The world's first auction-bidding based platform to share time.

Anyone can earn regardless of skills, experience, or follower count.

World first organized time marketplace

Time bounded and purposeful activities. Not for relationship or forming long term bonds.

Real world interactions instead of superficial online engagement.

Total Freedom, pick the price, set the place, choose the activities, and decide when you're available

Competitive Landscape

No direct competitors, Self estimate Indirect competitors are -

Platform	Core Offering	Key Difference
Airbnb Experiences	Local travel experiences	Tourism focused
Urban company	Professional services	Skills required
Upwork	Freelance services	Skill based, not companionship
Meetup	Event networking	Group events, no time monetization
Couchsurfing	Free travel hosting	Non-monetary, no auctions
Tinder	Dating meetups	Dating only focus
Facebook	Pure social network	Virtual connections only

development.**

vision

Timelii's vision is to become the world's first and largest time marketplace for real world companionship activities building a new economy of time and togetherness. It is a global platform where millions connect not through posts, but through real-world presence.

Our mission is to reduce loneliness and improve mental well-being by fostering human connections through real-world companionship while also empowering individuals to monetize their spare time through hobbies activities such as sharing a coffee, traveling, mentoring or simply conversation.

mission
